Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. Applicant is requested to submit formal drawings.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 7 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Lord et al. (US 4,915,047 A).

Lord et al. shows a knockdown catamaran having a main spar [31, 39], a bow spar [34], and a stern spar [33] releasably connected between two horizontal hulls [22]. A trampoline [65] is disposed between the main spar and the stern spar. A rudder assembly comprising a rudder, a tiller and tiller arm is removably attached at each hull stern. At least one bow line (see fig. 1), and two stern lines connected sternward of the main spar, support a mast [60] that is removably attached to the main spar.

Re the newly added limitations in the amended claim 7, it is noted that during a partial assembly stage when the pontoon lock [40] has not yet been installed, the main spar [31, 39] is capable of rotation. As such, if the bow line is released from the bow spar, the mast is capable of being lowered from a vertical to a horizontal orientation, therefore meeting the requirement of the claim. Similarly, any pulling force applied on the bow spar with the bow line in place is capable of pulling the mast from a horizontal to a vertical, thereby also meeting the limitation of the claim.

Allowable Subject Matter

4. Claims 8, 9, and 11-18 are allowed.

Response to Arguments

5. Applicant's arguments filed 6/06/2005 have been fully considered but they are not persuasive.

Argument: Applicant has argued that Lord et al. does not disclose a bow line.

Response: Figures 1 and 2 clearly show a pair of bow lines as well as a pair of stern lines, as depicted by numeral 64..

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
